

Status of Progress of Decisions taken at the 12th Steering Committee

Twelfth Steering Committee Decisions	Status
<p>Decision 1: The Steering Committee invites the Implementing Partners to work with the Secretariat to build on the suggestions of countries and sub-regions made at the meeting (and captured in the report) and to revise the current pipeline list, to develop short briefs with estimated funding needs and timelines for each country/sub-region and to circulate it for review by the Steering Committee, as a basis to prioritize future funding decisions.</p>	<p>CREWS/SC.13/workdoc.3 provides a revised list of pipeline countries, short briefs and funding needs as a basis for prioritizing funding decisions at the 13th Meeting of the CREWS Steering Committee.</p>
<p>Decision 2: The Steering Committee requests the Secretariat to include comments made at the meeting in a revised version of the currently named “Delivery at Scale 2021-2025” document to be circulated within one week of the meeting, for review, comments and a subsequent approval.</p>	<p>The revised CREWS Operational Plan 2021-2025 was circulated to the Steering Committee and all comments incorporated. It is expected to be approved at the 13th CREWS Steering Committee along with a proposed timeline for its roll-out.</p>
<p>Decision 3: An inter-sessional meeting of the Steering Committee for Contributing Members and invited Observers will be organized in the first quarter of 2021 to follow up to the discussions regarding SOFF at the 12th Meeting with a view to understanding the opportunities and implications for the CREWS initiative.</p>	<p>Creating a SOFF window within CREWS is no longer a considered option by WMO. As a result, the proposed inter-sessional was no longer required. WMO will be seeking a close link between the financing mechanism, secretariat and governance structures to be established for SOFF and CREWS.</p>
<p>Decision 4: The Steering Committee invites the CREWS Secretariat to explore how CREWS could become a partner of the Risk-informed Early Action Partnership (REAP).</p>	<p>Pending approval by the Steering Committee, CREWS Secretariat has made a request to formalize its engagement through a Letter of Intent with the Risk-informed Early Action Partnership (REAP).</p>
<p>Decision 5: The Steering Committee invites Members to continue consultations regarding the next Chair of the Steering Committee and to indicate their interest before the end of the year.</p>	<p>The Government of France assumed the Chair position of the CREWS Steering Committee for 2021.</p>
<p>Decision 6: The 13th Meeting of the CREWS Steering Committee, for Contributing Members will take virtually in the 2nd quarter of 2021 to identify the next round of countries and regions for which to initiate projects, review the preliminary findings of the first CREWS external evaluation and review progress on the roll-out against currently named “Delivering at Scale 2021-2025” document,</p>	<p>Done.</p>
<p>Decision 7: The 14th Meeting of the CREWS Steering Committee, open to Observers, and would be held in the margins of COP 26.</p>	<p>In case COP26 is held as a virtual or partially virtual event, the 14th Meeting will also be held virtually.</p>
